Color Usage Guidance

- **Red (#ED1F24 / #FF0012)** — Reserve for primary CTAs, the logo, and key accent elements. Never use for large background fills.
- **Navy (#0D2240)** — Use for headings, footer backgrounds, secondary buttons, and areas requiring authority.
- **Steel Blue (#6488A0)** — Use for hover states, secondary links, supporting icons, and interactive highlights.
- **Gray (#87898B)** — Default body text and navigation links. Provides readability without heaviness.
- **Mist / Light BG** — Use for alternating section backgrounds and form containers to create visual rhythm.

Typography

Nunito Sans is the primary typeface across the website, providing a modern, friendly, and highly legible reading experience. Roboto and Roboto Slab appear in select Elementor sections. The type scale uses weight variation rather than many sizes to establish clear hierarchy.

Primary Typeface — Nunito Sans

Aa	Reece Windows & Doors Regular (400)
Aa	Reece Windows & Doors Semi-Bold (600)
Aa	Reece Windows & Doors Bold (700)
Aa	Reece Windows & Doors Extra-Bold (800)
Aa	Reece Windows & Doors Black (900)

Supplementary Typefaces

Roboto — Used in select Elementor page sections

Regular (400) • Clean sans-serif for UI elements and alternate body text

Roboto Slab — Slab-serif for emphasis & contrast

Regular (400) • Adds warmth and authority when paired with Nunito Sans

Logo & Brand Elements

The Reece logo uses a bold red wordmark set at a dynamic diagonal angle. It appears in three variants: full-color on light backgrounds, white on dark/navy backgrounds, and alongside the brand mascot for a friendly, approachable tone.

Logo Variants

Primary — on light backgrounds

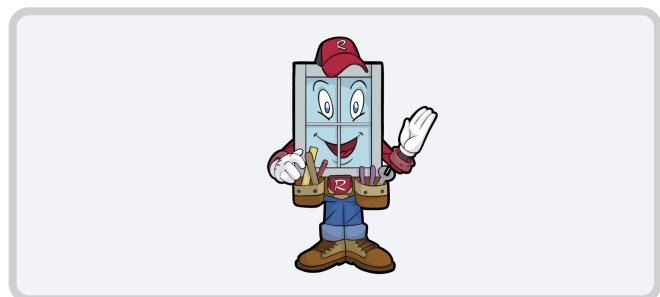

Reversed — on dark backgrounds

Angled Logo & Mascot

Angled lockup — top bar & mobile nav

Mascot — approachable brand companion

Signature Design Element — The Diagonal

A distinctive angled triangle (clip-path polygon) appears throughout the site as a branded motif. It uses Reece Red at reduced opacity (50%) layered over content areas and product selector cards. This diagonal creates a sense of momentum and modern energy.

Buttons & UI Components

Buttons are rectangular (no border-radius), uppercase, and use generous horizontal padding to command attention. The primary CTA uses Reece Red; secondary uses Navy. Hover states shift between these two anchor colors.

Button Styles

.btn-primary — CTA Red #FF0012

.btn-primary:hover — Navy #0D2240

.btn-secondary — Navy #0D2240

.btn-secondary:hover — Steel Blue #6488A0

.btn-white — outlined on dark backgrounds

.btn-white:hover — fills to CTA Red

Form & Input Styling

- Input fields use icon prefixes (user, email, phone, map marker, chat)
- Background: #6488A0 (Steel Blue) for form container areas
- Text inputs: 17–19px Nunito Sans, no visible borders
- Consent checkbox with legal disclaimer text below form fields
- Dropdown selects for 'How did you hear about us?' attribution tracking

Layout, Spacing & Iconography

The site uses a 1600px max-width container with 15px side padding. Layouts follow a responsive grid with consistent vertical rhythm. The diagonal clip-path motif carries through content cards and hero areas.

Layout Grid

• Max container width	1600px
• Container padding	15px left/right
• Content area margin-top	80px (mobile) → 130px (desktop ≥1200px)
• Section spacing	50–100px vertical margin between major sections
• Card clip-path	polygon(45% 0, 100% 0, 100% 100%, 0 100%)
• Image panels	Background-size: cover, center position

Iconography

Icons use Font Awesome 5 Pro (regular and duotone weights). Custom SVG line icons represent each window type (single-hung, double-hung, casement, awning, sliding, picture, specialty, front door) in the product selector. Form inputs use icon prefixes for user, email, phone, location, and chat.

• Icon library	Font Awesome 5 Pro + Font Awesome 5 Brands + Duotone
• Product icons	Custom SVG line art — consistent stroke weight, monochrome
• Icon color (nav)	#87898B (Gray) — matches navigation text
• Icon color (active)	#FF0012 (CTA Red) or #FFFFFF (White) on dark backgrounds
• Form prefix icons	Inline SVGs: icon-user, icon-envelope, icon-phone, icon-map-marker, icon-chat

Trust Badges & Social Proof

The site prominently displays third-party ratings and badges to reinforce credibility. These should always appear at their official aspect ratios and never be recolored.

• BBB	A+ Rating	Displayed with gold-on-blue BBB mark
• Angie's List	4.7 Stars	Official Angie's List logo
• HomeAdvisor	5.0 Stars	HomeAdvisor badge
• Florida Solar & Roofing	FSR member	Registered wordmark
• Houzz	Listed	Houzz logo
• Nextdoor	Listed	Nextdoor neighborhood favorite
